

Starband® 3D™

The Starband 3D is the 7th CRO addition to the Star Family of FDA-cleared custom cranial bands. It is lightweight, comfortable, and has an aesthetic design.

A NEW STAR is BORN.

star  band®

Designed with Your Little One in Mind

- 3D printed using advanced printing technologies.
- Advanced modification algorithms create an intimate fit for optimal outcomes.
- Zone padding provides adjustability for the entire treatment period.
- Finished trim lines (with 6mm adjustable border).
- Bi-valve design with bilateral side openings.

Why Parents Love It

- Lightweight and comfortable
- Ventilated for better airflow and cooling
- Easy to put on and take off
- Low profile design

Who Is Starband 3D For?
